

Explain Choice Of Burial Site

Boston, Mass.—P—The decision to bury the late President Kennedy in Arlington National cemetery was taken to avoid prolonging the family's agony, Richard Cardinal Cushing said Sunday.

In a television interview, the prelate explained that if the body had been brought to Brookline for burial beside the body of Patrick Bouvier Kennedy, the infant son who died in August, this would have extended the funeral period into Tuesday.

The family has had enough grief, the cardinal said.
