

I've put the Rossman tape near the "family" tape recorder on which I play the tape to which I just sit and listen. I just noticed it there, and it reminds me to tell you that Allan Ginsburg has done something with SCLC radio and tv in which he says that Cubans, presumably meaning exiles, have taken the hard-stuff trade over from the Mafia. I do not know the details, but I presume on a percentage basis. I am inclined to credit it because earlier I had noted that almost all those listed in the papers as picked up transporting were Cubans. Their east-coast involvement in such arrests has been heavy. I do not know where or where the program is aired, or if it has been, without attention. I understand the radio show goes to 150 stations. The SCLC Radi-TV office is 475 Riverside Dr., NY, 870-2365, if AP should consider this a story. Man to talk to has been on west coast but may be back now: Bill Stein (seems like very nice guy). H
