

9/30-Thanks for the mike and tupe cleaner that came today. First time I get a hance I'll test for sensitivity, etc, comparatively, too. We used to get such a type cleaner but it, like out favorite white-out, is no longer available locally. And what you so thoughtfully sent is made near here-at Timonium, a suburb of Baltimore, an hour away! ^uIt is particularly grateful, for she has to use a silk ribbon (we could never afford a carbon-ribbon machine) in typing the master, and on some pages has to clean keys three times! Surprising how after the passing of time small things can assume possible significance, as with the cab drivers and the Atlanta stories. Again thanks for your perception on the San Q clothing. H

Seems like I'll be getting all the NYT stpries on Attica. Today thre 23, plus NYP_ost and at least one long Jackson sstory from Caldwell. I think also a short one.
