4/19/72 I have taped a Felxi Greene interview with Chou for you. It was aired this a.m. on Today, NBC. It is recorded on top of an unerasd NET Chica show I had taped from WETA TV for you and then~~d~~ decided it was not worth your time, so at the end of Greene-Chou, some of that will remain. To be certain ⁺ missed none of it, I began taping at the station break, so there will be some junk at the beginning, too. I'll wait until there is something worth putting on the other side (this is 2) for you, unless you are anxious to get it sooner. H
