

I'll says Ladies Home Journal or sumpin has Kissinger secretary story that may interest. She clip when she finishes and I'll send after I read, or if you hear about it, don't buy it. H

Thereis no rush on returning any Kleindienst/ITT stuff. If you'd like to accumulate and send 3rd class, no sweat, I'm keeping it all in one file anyway and it is rarely in chron order, give given the jamming in the file drawers only re- levered this week. H

APR 13 1972

ITT-Unless I mark otherwise, please return, but without rush. I have to mail other things, so I'm mailing this little bit. I'm slightly encouraged by yesterday's court hearing and the possibilities, and I'm wondering if Stoner has overplayed his hand - or if I am. Best, H

16 Apr 72

Thanks; no need; already have. For several months now have been getting the magazine, followed each time by a bill. Have written them two or three times saying didn't order, don't want, you'd pay - no effect whatever. Has happened within the past year with other magazines; after a few months they stop coming. Suspect it's worth it to them to send it free and have a nice fat subscription list to show advertisers.

What you included with this mailing was ITT/Chile, marked for return (herewith, after copying). You also included several clippings on the ITT/Kleindienst hearings, not marked for return. Uncertain whether you want these back. ~~Unlabeled~~ Will keep and file, until we hear otherwise.

My note dated 16 Apr somehow was left out of our last mailing. In the meantime your mailing of 15 Apr has come in, including this note.

Does this say you'd take all the ITT clippings back unless they're marked "Do not return"? It'll be simple to pick the clippings you've sent out of the Kleindienst/ITT box and return them (most of them are already marked with yellow pen - hope you don't mind), but will wait to hear if this is what you want.

Je
