Dear Js,

Unless Hil recommends against mailing during Xmas rush, tonight or tomorrow I'll package blanket - after looking at, which I've not yet done (it having been out of mind). Large and welcome mailing of 11/1\*Moynihan letter returned herewith. Hadn't see, believe. Machine clip not sent earlier. I'm interested in anything on FBI informants, esp. when they provoke violence or cause it themselves.

Glad to get all Garrison clips because I no longer get local papers. I think the zany may have outfoxed himself on the State case, and I'll be particularly interested in anything Ben Smith says or does.

Reason for firing Soule and Frey rather than keeping them suspended makes no sense. Nor does it that JG did ask change venue, didn't ask severance.

Shaw civil suit: Panzeca told me they are serious about it. I told him I think I have enough to defeat it and while I hadn't given it to JG for the perjury case, I would give it to the T&C people who, I feel, ought not suffer.

10/27 clip on refusal court to give mother George Jackson's effects: I presume with no other clip this became the final action.

Contreras Castro: my info is that he is free and bragging. I should hear more soon.

Albert E. Kahn and his The Unholy Hymnal: I knew him WWII days when he wrote exposes, presume two collaborators are sons. Book looks interesting, but I'll await remaindering.

Other clips will await time for reading, but they all look interesting. I've not yet opened all the mail. Not even one from JER.

Good to be home after three weeks. Nine hours sleep left me still tired.

But what a load of immediacies!

Thanks and best,

If the two NBC programs on Viet Nam and CBS' on surveillance do interest you and you do not get them for yourself, my young friend in New York has arranged to get me copies from the nets. H
