P.S. - All we have by Dr. Lattimer is his article  
in JAMA 24 Oct 66 ("Factors in the death of President  
Kennedy") and a typewritten copy of the abstract only of  
the article by him and his son in International Surgery Dec 68  
("The Kennedy-Connally single bullet theory"), the latter  
probably copied from Hal's copy.

If there are others you know of, would you -  
sometime - give us a note of the title, source, date,  
to fill out our records? Something to do in all those  
long, boring stretches of free time you have.

In news stories all we have so far are:

Graham, NYTimes 9 Jan 72

AP 9 Jan 72

SF Examiner-Chronicle (AP) 9 Jan 72

States-Item 10 Jan 72.
