2/4 Somebe by now pretty expert dubbed the Sannes tapes. Despite the crummy cassettes, the quality on the TC 40 was excellent. Fascinating. I'd know just a bit of the story. I'm sorry now that I did not get the original Jacobs show when it was, ultimately, aired on the DDC ETV station, after original censorship. I'd really like to have the unedited stuff, for someday there will be a book I SPY or something like it, perhaps closer to I, SPY. My own personal knowledge of such things, including spying within spy outfit and stealing (example, the Cagney movie OSS was a direct steal of the last job I had as a soldier within OSS, a secret history of its intelligence operations of which there were to have been but 12 copies) goes back 40 years. In the domestic departments of dirty tricks I know of attempted murders subintracted, in each case for half, beginning at \$400 and being attempted for \$10, with the most impossible result, the intended victim unscratched after the total destruction of the building in which he was asleep. The number of spies who today radicalize is beyond belief. Rightists turn far left, some are pricked by conscience, etc. So, thanks for this and anything else. If you have any idea how I can get the Jacobs NET raw material, I'd appreciate knowing. I'll write a friend in NYC and see if he has any means. Best HW

2/6 friday cbs taped an interview with Xuan Thui in Paris, aired it today, followed by a live show with Sec. Rggers. I have, i hope, taped Xuan Thui and am now taping rogers, only in the event you and/or a young student friend howard want either or both. let me know if you do. or don't. the quality can't be good because the translation is over the original in the answers only, it being clear that the questions were understood (visually clear, from head nods, etc.). how i wish they had a good american newsmen to counsel with. there are short answers they could give that could get thru to many, if not most americans and have a chance of reaching more people because of the stupidity of us policy and the propaganda devices used.

Right. Howard is a young friend who regards us as second parents, a very bright, very decent, very dependable and exceedingly young (now 18) man. What makes this the more exceptional is that the Ing had just taken a verym verym very vigorous stand, editorially, quite ipposite what he said. We are quite fond of him. He comes here as often as he can and is getting to know my files better than I. we have him for every school vacation. Great kid with fine prospect. H

This was Drury. Never give such things a second thought, just do where it serves your convenience. I have the condensation in LOOK, if I did not copy and send and if you want it. The quotes are great. I think blabbermouth Kleindienst let it slip why they delayed so long in indicting Garrison: they had, under their own regs., to give him all the intercepts, and they didn't want to and, I think, midified the indictments not to have to H
