FEB 24 1972 I now have four not consistent accounts of the last Ray misadventure, inc. AP's headed "Ray 180" dateline PETROS, Tenn. signed 12:01 est 15-2-72". From max. 3 1/4" width u and l case copy I presume from a regional wire. It gives the date of the venture as 2/5. Another stroy, unattributed and printed 2/15 quotes the corrections commissioner as saying it was the 7th. If you see anything different, these inconsistencies intrigue. Thanks, HW

Joestem, once of the least dependable of sources, quotes unspecified reports of a perjury charge vs an assistant LA coroner David Angus Stuart who, as J visualizes it, was planted in Noguchi's office by the CIA to discredit Noguchi and his autopsly report and testimony. As Je works her way through the accumulations, if there are any stories on this, I'd just like to know of them. I see no relevance, least of all this tale of J's, for I kjoy the facility with which he manufactures and his love of embroidery. H
