

HW

Many thanks for letting us see this most impressive record. POOR Mr. Vawter.

FEB 28 1972

His situation is much worse than the letter I sent indicates. He is not only in the middle and hungup on policies on which he has not been Briefed, but he is so frustrated he is begging me by phone to go to court to get out from under. He is so stupid he doesn't realize that all he has to do is turn me down, forward my appeal and his rejection to the asistant administrator for administration of GSA. He was so anxious to coax me to sue that he didn't even listen when I tried to tell him, without using those words, that he was off the hook once he acted. At some point they're going to have to do something with me because I hardly ever fail to nail them, never fail to make a record, actually do such unheardof things as alleging perjury in court, and they are not born whores, so they can't live with it and what they are being forced to do, like change regulations, as I think I mentioned. I'll have a bit of fun with this in a long, alas, epilogue. It will be hard to keep it from making a separate book!
