Hidden refs to Charles and Marie (Martin, etc.) Stein, both with the transcotics records. He seems to have disappeared, she is in Algiers, suburb N.O. I have raps sheets, etc.

This is Martha M, on which, as I told you, I'd missed the best by far, the first segment. However, because you have no TV, it may give you a bit more of the feline 1. flavor than the colder printed word. ○ It is also one of the cheap tapes of which I wrote. Last night by accident I learned that Mort Sahl was to be on the Cwvett show and I stayed up for it. Surprisingly, he made no single ref. to any assassina tion or to Garrison, didn't even get close to anything that could even suggest the subject. Alexis Smith was on it with him and pulled the best line of all, about Nixon. What I have earlier reported of TV news coverage continues, as slower pace and less space, but even today on CBS a.m. TV news he was again called a liar, this time by Murray Kemton, who explained it by saying that N persuades himself that lies are truth before telling lies. The persistence of this honest reporting, perforce anti-Nixon, surprises. H
