

JAN 28 1972 X 1/25- I do expect a new graham
story, one in which he has his
own pathologist look at the stuff.
I have know of this for 3 wks. when
i forced the issue with Rhoads he
made me the same offer, subject to
the impossible, marshall's ok. but
i do not now want to see and believe
nobody should in the present
context see the film. i have, as
you will renewed my request to see
the clothing. the purpose of this
note is to tell you not to go to
the trouble and cost of copying the
times story. when it breaks i'll
have to go into town for it, and
when it gets here, it is the same
edition you get. other stories,
yes, for play appraisal and any
different content. tapes on inter-
views, by all means. and one other
thing: upi moved a picture of
lattimer with his lovely chart,
about 1/10. could have been 9 or 11
but i thibk 10, taken at late pm
10 press conference/taping for a.m.
tv use. i am getting, have printed
X copy. did a.p. have one or more on
wire, then or later. thanks, h
no rsuh in answer.
