\* 4/26/72 NYT on Robt K Brown, Paladin Press, explains why he changed name from Panther, unless blacks impelled: his partner. Apparently he got some new nut to share his losses. New to me. I'd not heard of Feder C. und. I had much on Brown in COUP, xed for F-U. He is not conservative but rabid extremist. I suppose he is working on an anti-CIA book, as Ripley says. He told me he was a year ago. Six years is a long time. With him, I fear "buff" and racist nut are indistinguishable. It is not the driver of the car who causes the accident but the mfr. What this odesn't say is that he went to intel- ligence school twice and was promo- ted after not reporting a proposi- tion to kill the President and thousands of others. I have the tepid FBI reports. H.
