7/20- One of the mysteries of The Watergate Caper is the impossibility of any paper coming up with a Hunt picture. Bob Woodward told me yesterday he had tried the publishers of whom he knew. I'll be sending him a more complete list when I can. There is one where they should have something from promos if any were ever made. I have also written a Mex. City friend, former reporter, to see if off-chance any morgue there has one from his attache days there. Have you any thoughts on where one might be had? I suggested to Woodward and others checking Brown classbook, alumni news, etc. This is just a bit too unusual, all those books and no pix. Heat wave and pollution continues here. Hope not there. Best HW
