6/26/72-Hawkeye (aka Lil) notes what I missed, that today's Post's Helen Thomas story on Markhe the Mitch (pun) has a Thurmont dateline. That is 10 miles for here, the cosest hamlet to Camp David, whe where I presume there are no confidential calls. This story does . not include details on the TV news this a.m., like the forced innoculat tions the security guards gave MM. She apparently also phoned the NY Daily News from Rye. HW If you know your old-time soap operas, this might be titled "Dohn's Other Wife". In the TV news she was quoted as opposing all the "dirty work" and all the "cops and robbers stuff", as provocative as it is vague.
