re clips with 6/24: Bethell ltr  
real shocker, having nothing to do w  
with Shaw and provoking wonder at  
hia role all along if he accepted  
position believing LHO guilty or  
stayed there after reaching belief.

Glad to get name Mundy in Gervais vis  
visit NO 5/5. I knew he was there  
and had made the arrangements  
through an unnamed trusted. Ivon  
told me before he fell silent again.

Don't forget that Louis LeCoeur was  
USAtty NO and it was my info when  
I was there 11/71, anti-Garrison  
source, that feds were considering  
including him in indictment. No  
necessary connection with his rep.  
pinballer now.

Once when he needed some info and  
phoned me, more than a month ago, I  
guess, Sciambra told me that JG  
was considering running for the state  
sup. ct., but I didn't think JG was  
serious and I do think it is an  
error. HW

2/28 Larry Finley sent me the 7/72  
Chi Journalism Review because it  
begins with two stories on informants  
The second is not on Tackwood but  
the press handling. Read first and  
began second in bed last night. It  
has others, on Trib, Evans-Novak, etc  
If you would like to borrow, just  
send this back. It will remind me  
that I'll have it filed under Inform-  
ants. If I dont, after finishing,  
send you the rest. The local jour-  
nalistic corruption you know. This sa  
says the whole Tackwood story is soon  
to be published as The Glass House  
Tapes by the Citizens' Research and  
Investigations Committee. HW
