3/7-Got a copy of the Wash Star by accident this evening while awaiting Lil. Sorry I had to take part of the State Dept story off. That was accross the entire top of the first page. Remember, it is Republican and its foreign affairs (Crosby Noyes) is reactionary. Some things that may interest back up on the jump...TTT: Ron Nessen beat the pants of Danie Schorr on the Liszka thing today, getting the doc to back down on almost everything, esp. irrational behavior. NBC put it to him but CBS pushed less. I haven't seen it in the papers, but you may have had it on the wire. Both L's have been under investigation for Medicare overcharges, i.e. criminal activity enforcement of which is bt the Mitchellist. Turns out that L flew to Denver by pre-arrangement with Eastland and that after conferences with unnamed DJ officials...Do you recall TTP's other services, like supplying a vice pres. to be a spy,* caught in Hungary?After repatriation, which followed denial of espionage, he wound up teaching intelligence operations somewhere in New York, openly. It was in TIME, maybe Newsweek, but not noticed then.
