

11/29/72 Just heard segment of second part of Severeid-Douglas interview on CBSTV am news. Guess as ad for second part. You may hear it later on radio. Douglas refers to Ruckelshaus a broadguaged, etc., good man. Don't believe it. That is the p.r. image. He is a hack. It really is with him as I said in last chapter F-U. And within his agency, which seems good only because there is and has been nothing else, it is very bad. The good people they could not help recruiting or accepting as they beg n are skidded. One on noise is about to go and lawyers don't dare have any contact in fear...There was also a segment on Southern Univ- Baton Rouge, the unofficial investigation. There was a picture of a wall with a dent encircled. That was NOT a buckshot mark, one single large hole. Too large, too isolated. They reproduce the mistakes of the past with great fidelity. However, the boycott seems effective, with only about 200 students going to classes at N.O, campus, according to CBS
