Postmark as usually case illegible, but in mailing r'c'd today there were five items on WH comment re WG, so too late al started a separate file with this heading. As I see others I'll add, but not until used will I removed from dated files, general in naty~~re~~ on subject. Had not seen Star story from N.O. S-I on Russell. The name is familiar, but I do not remember his as Juvenile Dirdick's chief investigator. Maybe one, maybe senior, but the chief investigator on that and most other committee is counse, secretary, research director, etc. His cirrent istuation is ample commentary on his competence and Dick's appreciation. The address from which he moved is one of the tougher black neighborhoods now into which many hippies and similar types have moved, near Dupont Circle, if you've forgotten, and a block for where Lil lived, that same block P, when I first met her. Best, HW
