10/28/72 Post WG volume down greatly just at time most attention to it and large increase staffers overtly involved from by-lines, if you do not notice. So, I presume they are working on much more, their intensity not diminished by the new administration attacks on the paper, but that news priorities, meaning mostly "peace" and election news, may keep some of it from ever seeing the black of ink, which is worse'n the light of day with this. Infrequent radio listening today discloses no attention. We have the editor of the local p.m. and his woman's editor wife coming for dinner. They have agreed to listen to the CBS-TV evening news in case they have the next instalment in Schorr's work today. Editor local fellow, up from reporter, not Bircher, like owner, and they are both rather nice people. When Eleanor and Hil met at a party the paper had for "celebrities" about whom its columnist, (both gay and reactionary) had written, they took to each other.

Hope you really enjoyed the vacation, prelude to the real one coming so soon! Best,

Jets last batch clippings, heavy on O'Brien (not mentioned in Post, as you may have noticed), includes possible forecast defense in Buckley's column. Hunt and Buckley are close and have been. Somebody heard that Honest Richard was concerned about dishonesty and the patriots saw the lamp in that spire. I find that for one of his background, O'Brien is practically the radical of this campaign... Lil just came in (10/30 6:10 p.m.) and asked me where the shway mun is!) Those lil ole gears are aworkin. H P.S. Post has had almost nothing in Fla. dirtiness. They are a bit cocky, mentioning almost nothing they do not originate, virtually no wire copy.
