

10/28/72 Not knowing whether it will be repeated by radio I'll be sending you a tape that may at first appear to be confused. It is what seems about to be a CBS WG series, on a Sony cassette on which Art Kevin had dubbed an interview with Lattimer. I've dubbed it onto a cheaper cassette without the alarm. I began by trying to get for you the voice of the VN delegate in Paris 10/27, again not knowing if you'd get, because of the NBC intro which was good: K can come to Paris on Tuesday, before Tuesday or after it, but if he wants to talk he signs first, and not later than Tuesday. This intro was followed by one presenting Carl Stern's piece on FBI Congressional spying as a scoop (isn't), so I taped both. When CBS had a bit on this, I got it, but it is nothing. Then the rather long for TV spying, sabotage thing, which concludes by saying it is their first part. So, I'm letting that cassette stay in the Craig, with another nearby, in case they have the next sequence tonight. Or for Monday or whenever. I'll get the rest on this. It will take longer to listen and dub than it will later to just listen, if needed. I can't think of transcribing and I don't think there is enough in it for this work. I've also asked George Herman for transcripts if they make them. I'll have carbon with cassette. I've ordered a today's post for you because there is much significant in WG developments, all along line I indicated at beginning re Mullen Agency. May write EMK today, haven't decided. That agency now looms even larger. This news involves them in fund-raising, specifically milk lobby's, with Hunt and Caddy on two committee fronts and Bennett giving orders. The FBI-Congress story may be exploited to help Gray in Congress if he is nominated, for he'll be given credit for "ending" this spying rather than lying and continuing it. Only stupidity of agent in calling newspaper led to exposure. What does it say of Gray/FBI if he says he shook the joint down after coming in and was told no such files exist or existed? I'll be continuing to send you full Post SEAsia coverage because I can't judge if you'll want. In almost 100% coverage will be Post's own. Some of McG will be on this. Example today: buried complaint no VN briefing, only two to date. Radio reports early a.m. more specific: refused after many phone calls and McG had no idea of what impended, had been agreed to. (Also a way of waging political warfare, seriously influencing his ads and appearances and speech-preparation, another Dirtydickery). Lil is clipping these from our paper and I may mail when I go for yours. Best, HW
