Jim-I've read the first column of the Group Research  
report on the NSRP and had to lay it aside. This note APR 10 1973  
to let you know that should you ever have interest in it  
or those referred to in this study, I have old files that  
predate Group Research, files I compiled before World War  
II. All the names I've seen so far are in them. I haven't  
looked at them since I put them in storage when I went  
into the Army. However, I do not believe there are among  
those I gave away. HW 4/8/73
