Haven't had time to read the Agnews or to think of it much until a little while when I went to a neighbor to get some corn for supper, yumyum, just picked. Waiting for him I returned to thoughts of this morning's walk. There are so many ways this could be a Nixon operation can t itemize them all. It could be a parlay in which the real victims are the ^Democrats, which could make the GOPs look like the innocents and, with all the attention, could get even more when the GOPs indictment the ^Dems, as they did in ^Texas (Sharpstown) & elsewhere. With no real knowledge, I'd say there is no limit and the variations are indefinite. If both parties haven t been deep in crookedness, ^{PA}aryland, which is morse than most states, had a sudden reform. Doesn t smell any different, tho. This began as an effort to get ^Dems. If it has an end, it'may yet be that or be in some way designed to help GL. If the source of the leak is found and it is Dem, there could be a backlash and GL would seem justified on leaks. HW 8/9/73

Young former right-wing friend from near New ^Orleans reports ^Garrison appeal denied ^{AUG 1 0} 1973 and criminal trial set for soon. He offered to save both S-i and T-P clips and I accepted, asking him to save until all over but to let me know if and when new informants surface, as I expect. If trial is not over by time (law) school starts (at Jackson, Miss.), I'm sure he'll get copies, locally or hy mail, so I'll have should you want. I expect to file, not read and have no interest in trying to keep up to date

I also roughed out what I'll be writing abo about those ITT documents. I am not enclosing an unread carbon, but I made an extra one in case you would like to read it. In my opinion it is ebough for criminal charges against many more than Mitchell. All those with knowledge of the payoff and the special privelege. Ehr. included, as well as 'olson, who is more obvious and gives them all guilt with what the Post omitted, we have lost control of the proof and should withdraw Kleindienst's nomination. Haldeman got it, so him, too. HW 8/8/77406 1 0 1973

AUG 1 0 1973

I'm sending the unread drafts of Hunt-CIA- WH and committee-ITT insertions on the chance they may be informative. Don't bother returning but don't throw away immediately becquee I've had to send the other carbons to a prospective agent, the worst way but aside from what I could and did say in a letter, the only sample I could now give him. Last night il started retyping and her typewriter needs repair! HW 8/10/73

AHG 1 0 1973

If you didn t read Post's Agnew stories, I didn't either. But having heard a radio news item, I look ed for and found that story: his claim to having been offered a bribe when running for governor was and was labelled by the local prosecutor as a fake. Claiming 3 approache, Agnew would name no names. His opponent had earlier made the same claim.

> HW 8/9/73 AUG 1 0 1973

Two long phone calls today from Mel Parker, Esquire, to straighten out in his own mind questions he has on JFK text for 11/73 issue (proofs 10/73). These had to do with the popular fictions substitued fro fact re pix,X-rays, other evidence, character and who suppressed. Inherent was exculpation staff lawyers, personal incrimination of RFK, etc. I tried to explain and in the course offered him in confidence some of the contents of my unrpinted work. Also offered it for purchase not for for use without it, emphasized. I believe that on those things of which we talked he has now a fair understanding of the realities, not the fictions. Seems they are making a deal of Wyril, how much I don t know. I told him that if he has any additional questions of fact I'll be glad to take the time to try to help him. From Esquire's past I fear the worst. HW 8/9/73
