

20 August 1973

Dear Harold:

This replies to your 15August73 request for a copy of your instant analysis of the Watergate indictments of 15Sept72.

We find only the attached. First is your memo of 16sept72 which was before you saw the indictment and is probably the same memo you found yourself, but which I send along in case you produced two memos that day and don't have this one. Then there's a memo dated 15sept72 which might be of some relevance. And finally a third memo dated 19Sept72 which might be helpful.

We have searched all possible files through the end of 1972 and can't find anything else that seems to correspond in any way with an instant analysis of the indictments. We have to conclude either that we have misplaced or misfiled one if you sent one here, or that we never received one.

You can keep these if you need them. The red stamp denotes the mailing date in each case.

If we should run across the instant analysis during ~~xxxx~~ rummaging sessions we'll send it along.
