

31 August 1973

HW:

On 19 August KPFA put on nearly eight hours of stuff on Watergate, mostly as a fund and subscription-raising effort. Very little new, and we don't plan to keep the tape.

However they did have about 20 minutes of Dennis Levitt on KPFK in LA reading Sherman Skolnick's "Fact Sheet," which presumably capsulizes his case on the Dorothy Hunt plane Crash, and a phone conversation with Skolnick enlarging on some of the claims he makes in the Fact Sheet. I doubt if it has anything you've not already heard through Larry or Ed, but if you are interested I'll be glad to make you a dub and send it along. Skolnick sounds somewhat more impressive than I had imagined he would. But that's not saying too much. Let us know if you need this.
