

JUL 21 1973

News release WC materials at Archives.

Today I received yesterday's letter from Jane Smith, Director Civil Archives Division, an undated 9 pages of "records relating to the assassination of President Kennedy that have been made available for research during 1972-73."

nine numbered CDs head the list, which I've examined only hastily, reading for each entry only the brief description.

(First, the 12/19/63 letter from Sen. Dodd to Rankin, subject "Application of Robert R. Dorlan", which reminds me of Bud's committee member, Hal Dorlan.)

The largest single source seems to be CIA, several docs on "Secret Agent D", some on conflicts with State info, info from the USSR and about LHO,

I don't know when I can get to the Archives, or how many, if any, of these docs I can afford?

It is conspicuous that of those who have been going to the Archives regularly, including CTIA people, particularly Bob Smith, not one has mentioned the release of any of these. Several fall within the area of a standing general request I have at the Archives, anything relating to an Oswald-government relationship.

When Lesar returns from abroad and is here, I'll discuss this with him, see if he plans to examine and/or copy or if he has obtained any to date.

HW 7/19/73

HR-if they don't send you a copy, you can make when here or I'll do it for you
