

Peter Dale Scott was here with Lesar today. His chief interest here seemed to be in Hall Howard and that brigade. He never did get into Cubans. He has considerable intrests in old KMT intelligence. I told him how to phpne you but also said you are now quite busy, in the event you are too busy or don t want to meet with him. He seems to take an orthodox Marxist view of the JFK assassination, in terms of capital/finance interlocks that seem to be, if I understood him, rather extensive. He rather complicates this subject without need or reason, I believe to conform to the connections he has worked out but connected with nothing solidly connected with the assassination. With this he visualizes heroin, org. crime, oil, law firms, etc. Or, Farewell, America. Disappointment. He or Lesar took the five pages from Leigh James, by accident, I'm sure. I invited him back to go over my Cuban files and copy what he wants. He is late returning now. He has seen Mary in Dallas and speaks of her, Bud, Smith and Sprague for all the world as though they are not to be questioned. He seems to have a large, bound ms, this one carbons about 1 1/4" thick. He was disappointed that I didn't want to spend time on his oilers, esp. Wynne. Some of his views are rather paranoid to me. Or, he is different on this subject. HW 6/20/73

a Part of 1970 Spy Plan quotes "this week's issue" of Newsweek on "lean and dairy graft and  
what interests me much more, Hunt's part in a WH plot to assassinate Omar Torrijos of  
Panama. (More likely over canal agitation than alleged heroin.) If you have this I would  
appreciate copy, thanks. HW 6/16/73
