

The Buckley second transcript was not sent to you, as I'd asked. Two came today. If you have not gotten your own, as I think you indicated you were, I'll send. Lesar's reached him several days ago. I then took a fast look at it. My impression is that the beeped or whited-out part on the air is not identical to what is in the transcript and my recollection is correct, he did retain copies of highly-classified information, a presumed crime. Didn't want to rush Lil this a.m. so we got to DC an hour later than I'd expected and had that much less time with Lesar than I'd expected. We had no direct discussion of the spectro court of appeals decision, but it is apparent from his comments on what it should mean in other cases that he regards it as significant as I do.... He is going out there soon, to meet with Peter Dale Scott and Hoch. His wife will continue to see her folks in Singapore. Would you like to meet him? If you would, let me know. If he leaves before you can respond, which is possible, leave word with Hoch.
