I did get the NYTimes today. The few stories on the Ellsberg trial I've sent have been because of the fact they contained not because of the trial. I mailed the Dione tapes 3rd class this a.m. I had intended sending them first so I had some other things with them that will not take a little longer reaching you. HW 3/8/73

If you missed it, the extent to which a less wealthy government than ours has gone to collect and store information from illegal taps and bugs is in Flora Lewis' NYTimes piece of 3/8/73, reporting L'Observateur Nouvelle's expose. HW 3/9/73
