Dear Jis,
$11 / 6 / 76$ comittee. Whatever fathered the incanity is a hasle with Sprague if not with the nouse stopper It because dimny has agreed with us. Helif agree plenned step we he probably to Sprague. He'll get the second through verry jrobagree more when he gets my letters and I believed he hes also stgned a to-me-ony release to thave not decided vet. As Jin Violate his privacy. his means, of course, to Jim, too.

What remains is anything but a good situatior - a-man and a committee going off less than half cocked, less than ressonably and an unquestioning staff blindly doing as ordered. The intended rape of the law and of decency is frightening.

With this temporarily aborted, unless they ignore any decency and concept of legal rights and practise and go ahead without an okay from us and immy, there is not an,end. These are-the same people capable of this. And if the next session sees a continuation of the committee unless there is a further change it will be the irresponsible Gonzalez who runs it. His man is the one who did the initial leaning on Jim.

There are too many fights, too many of them so unnecessary! I'm tired tonight. 主t is not from the amount of work I did outside on a nice day for this time of the year here. That is less than half the exertion that did not tire me a month ago. But after some sleep I won't be tired. Snd I've already taken the next steps. I hope my choice of messenser will be that. It is a good $20-y e a r$ old wonan, a college student to whom I've Ircady written. She will metet the plane when I return from Wisconsin a week from tomomow nignt and we'II, talk about it.

It consists in not leaving it up to Sprague whether $\perp$ can reach the comrittee members. I cou, d mail copies of what I've written him to them but I want them put into the hands a of somene in the offices. If they hear me I have enough, more than enough, for decent or concerned people. Also for those who do not want to be laughed at on a serions matter.

I'm aware that $\ddagger$ bave not probed deeply into this. There was neither the need nor the time. The surface was too much.

If Sprague is determinea to go this irresponsible way there will be no stoping him and I'll not try. It is enough to have prevented his doing it within the standards of the system and legal proprieties. If ho-and poperan want to bed together, they are welcome
to each other. I think Foreman has othex worries todey.
Bud is only one of the possibilitoes of their misinformation about immy. On the representation of his attitude toward Lesar I think Lane is more likely. I think also that in may take an initiative against him with the "ew York bar. his one is not my idea. It is finn's. He went in to see another lawyer's client without colnsel's persmission and $^{\prime}$ without even secking it. Njw that we have his mailgran to Jimy it is worse than this, Which the bar does not like He pronisec "no publicity" and violated the promise immediately.

This is only a skirmish. It is enough to tell us all we need to know about them. and unless there is the most basic change what to expect. When Sorague expeets to "Solve" the ring assassination through Foreman what would you expect?

What I suppose is so wearing is that this should not be and should not have to be contenced with. I fell asleep waiting for the evening TV news and slept through it sitting up. First time for a while. I don think I did enough work outside to cause this fatigue or weariness. I think it is more Iikely emotional.

There was one benefit fron all this wretched business. Fim finally lost his temper. He really blew, fron his own account. He even threatened legal action against the thouse. I merely told him how proud I an and how I regret it had not happened earlier. He chuckled. Now that it has hap ened I hope there is a better chance for it the next time theme is the need. I have no knovledge of any prior occasions. it js an Evenu?.
this whole business is so irratoonal it makes prognostication foolish. Nonetheless unless-Sprague is a hardhat and a harderhead I think they 11 turn in another direction. Not that with this I can hold any more hope for it.
Best,
