

I had a chance to get NYTimes 10/20/73, late edition, in DC 10/20/73, so do not bother to copy the rather interesting looking stories.

When you get to examining the Krogh-Young 8/11/71 (from memory) memo to Ehr you will see that one graf is masked. I asked Barry if their copy is complete. He appears to have seen the possibility I did, for he said you mean graf 5, which is correct, and said he wondered about it. I then told him I had filled in that which was masked from the Houston papers and it is not by any stretch of the imagination national-security information.

His office has a glass wall facing the newsroom. It has a small sign reading "Watergate Central" on the glass... While I was there I met an old friend who had run a commission for Nixon when he was v.p. Now professor of law. HW 11/20/73
