

As I continue reading the (very) Gray testimony, I've come to believe that I should not only make a chapter of it but, with the necessary connections only and those held to the minimum, have it only excerpts from his testimony as it relates to WG. On Hunt, investigation, wire-tapping, it is something. Have you an opinion on this chapter title: "This Is Your FBI, by L. Patrick Gray"? Does it appear too frivolous? HW 9/1/73

No, not frivolous at all. Very good and to the point. Any copyright trouble involved?

Having had a couple listed, I've learned titles not to use be © (HW 9/4/73)
