

If when I return your San Jose file I do not remember to say it, this is to thank you for including what you (9/9/73) correctly describe as showing a "pattern of exploitation." This is quite valuable to making the point I have in mind. From a skimming before writing an intro I see some of the early, pre-San Jose stories, spell this out. If the mail, due soon, is not heavy, I'll finish before an afternoon appointment. Otherwise, I will soon and will probably send 4cl. I'll include what Lil has typed from the Gray Judiciary hearings. I have not finished going over them so there may be more later. Thanks HW 9/18/73. The Grays are carbons for you not to return. On the chance you will have interest. I'll be arranging these by topic and point.
