

Local distributor does have  
The Coven and is putting  
aside for me. If you cannot  
get locally and do want, he  
may have another and <sup>JAN 21 1974</sup> getting  
it from him and mailing to  
you would be easier and faster  
than your writing Fawcett. If  
you do want it. My belief is that  
that we should decide for our-  
selves what this means or if it  
means anything because at some  
close point the nuts will be onto  
it. Odd Skolnick has missed it.  
If I get Rolling Stone interview  
with Hunt older kids I'll copy  
and send or get Lesar to because  
of oversized pages. HW 1/19/74
