

There are several things in this letter from Lesar I believe may interest you so I send it. I believe you have commented on the general in the past. He told me by phone that he had already mailed the two other St. John books. If you want copies, please let me know. The Coven is still available locally here for \$1.00. I'm getting Lesar a copy today and there are others, on display drug stores (yesterday) and at wholesalers'... There is further indication CIA interest psychological matters in file from which Rocca/Stern comes, Cornell Medical Center study on what happens to the brain under interrogation, PH's description. He wonders if this indicates CIA sponsorship: "preparation of this paper was supported by a grant from the Bureau of Social Science Research." It does sound like a possible CIA cover name. HW 1/28/74
