

Liebergott memo: I'm positive I sent this so I guess there is a mailing you did not receive. IF JL can't find his copy, I'll have to listen to hours of tape. Sorry for the time and trouble, but thanks for taking it. It was a fascinating picture of Hunt, from his life style to his incredible beliefs by a man who knew and enjoyed baiting him. Important because it proves that Hunt did no real work on the HEW contract and the little he did was incompetent. He and the WH were actually going to air the Julie p.s.a. before the election. Bennet nixed it. HW 7/26/74 JUL 31 1974
