

Not knowing whether it would interest you I've been filling you in on Operation NSA. Without intending it, I'm sure, Floyd has been using papers I've given him like the Dutch used whiskey and beads with the Indians. The kids have been flipping out over getting copies of the (non-secret) Colby Report and what they are calling "The Castro Report," what Castro gave McGovern. If he could get a better command of language Floyd has all the natural instincts of a first-rate lobbyist. HW 8/20/75
