

JDW: I do have a WerBel (correct) file and welcome the mysterious-death clipping (SFChron 7/7/75) of the mysterious ex-Col. Robert F. Bayard. It makes little sense for a retired colonel to be working for so small if not unknown operator as WerBel, unless the colonel had nothing else he could do or unless he had other connections, as is rumored about WerBel. My interest in WerBel came from the connections of others with him. My interest was in the others, Cuban-mercenary types. HW 7/23/75
