

13 June 1975

Dear Harold:

I thought you'd like to know that the third class mailing you posted June 11 arrived today, the 13th. The secret seems to be that even though you labelled it third class, it looked so much like a normal first class letter that it received first class treatment.

Among other things it contained a very long thing, a carbon in your elite type a couple of dozen pages long, which starts out like a draft of an affidavit for Lesar to handle but which rather soon becomes what appears to be a speech.

Do you want it back ?

Another question: I recall some remark you made recently in a long memo to Lesar (I think that's where I saw it) where you were talking about sending something to me which I then would forward to Hock. I've ransacked your files but now cannot find this reference. So the question becomes: Is this what I'm supposed to send to Paul ? If so (or if you want me to send him ANYthing) please supply his mailing address. (You probably did this long ago, but finding it ~~xxxxxx~~ would be impossible). Thanks.

Best,

jdw
