Dear Harold:

Your mailing of May 6 came in yesterday, and contained another note indicating that you may have mailed us a copy of your draft for the speech Lesar read for you at NYU. There seems to be no question that you are under the impression that you did. In any case, none has showed up.

If you are sure you did and want to do some checking, I've received mailings from you in the past month with the following mail cancellation dates: April 5, 14, 21, 24, 28, and May 3, 5 and 6.

In reading through the enclosures in all these mailings, I developed no feeling that anything else might be missing.

On another matter, KPFA on the 8th announced an assassination forum at UC for that night featuring Lowenstein, Scott and Joling. We would have gone to see it if we'd known in time, but could not possibly have made it even with ~~xxx~~ skipping dinner. Yesterday, nothing in the Chronicle to indicate it had taken place, nor this morning, and KPFA didn't mention again. Lowenstein, by the way, is out here to work a couple of months with Gov. Jerry Brown on educational problems. No hint of who may be financing these guys. (all these forums, I mean). Kevin might cover you if they hit LA.

Nothing further here. We're swamped with Indochina, orphans, refugees, all other illuminations.

Best,

jdw
