

JDW: I don't know how much of what I'm trying to keep you up to date on is of interest but you can always throw the carbons away. On the Times/DJ I'm trying to frustrate to the degree possible the national desk/Washington bureau sycophancy and because I filed suit and made return-mail demands for what was not provided may be in a position to sue for damages as part of the same suit under the new law if they give the Times or CBS what they have not given me. The exploration mentioned to Ray is for a civil lawyer to handle civil suits. We've always been in a position to file viable ones but lacked the legal manpower. I've located a Tennessean whose practise is civil but has quite a criminal reputation. We will need someone with knowledge of the criminal law if as I suspect Livingston on CBS is a bit too much for Jimmy. The new stuff I've gotten ~~via~~ via FOIA amount to proof of conspiracy against Ray and subornation of perjury. It is also separately new proof of already proven and ignored perjury. I had just returned from the DC press conference when Eason's producer phoned and I was on the air immediately after the commercials. There was so little print-press coverage, with radio excellent and slight CBS TV I think I may be able to sell some stories. Best, HW 11/17/75
