

Agree with and many thanks for your 9/20 with the kind of ~~XXXX~~ account of the hearings I could not take in that never is in the papers....Presently I think there is much more promise in the internecine warfare more of which ought be surfacing daily. I'd have written about this had it been possible. The situation has always indicated it and I've had evidence six months now... D'Avy was a time waster but I think clearly an independent one. ...Nuts but not sinister...He did not surface until 1968 and then even Garrison had nothing to do with him...Hall may be a different case. His story to Art is quite consistent with what he told me years ago, he has an alibi I have and have printed for 11/22/63, I also have the check with which Tatler paid for this so I think I can and would help him if he sues. Looks like Belli has agreed to sue. There will soon enough be a line forming. I may be able to get Chicago counsel or publishing counsel not through JL and would include him...Other enclosures update on the more serious complications. HW 9/22/75 SEP 23 1975
