

Reur query on the 9/23/75 Pacifica newscast, that one is accurate. There was a subcommittee with a three-man staff then appointed, after which I had the approach from Bud. The 922 b'cast, which may be faithful to the NR story or the syndicated version, is not accurate but the inaccuracy may be in Szulc's piece, which I've not read. I'd like to get the NR and read both versions together. On that one you know the depressing inaccuracy of how these transcripts came to light. HW 9/29/75
