

If some of the updates and FYI mailings are of no interest, throw away. I should do one on my visit to the offices of the New Republic today but forgot. Meanwhile, the Post Mortem subtitle is FKK assassination Coverup Smashed. If there is something better than "smashed" or a formulation of the thought that indicates this is not a rehash nobody I've talked to has thought of or expressed it. I like my artist friend's design. We fixed on green chiefly because we've used most of the colors other than purple. It seems more inappropriate than green. I have a shooting and a delivery schedule that barring accidents and problems assures appearance before any TV special...Iⁿ some ways this will be the least attractive of the unattractive inside printing. But when the fees come through we'll but Lil a S~~electric~~ that now comes with typeface intercn~~hab~~able type ~~h~~ab~~~~ blass. Got some samples of the work it does today. No more reductions to compute except documents after this! Meaning after we have ~~thi~~ this. I also got a few lessons in how to do the job of tape without the tape that has darkened. In the future the stuff will look better, more professional, if we probably can't afford the self-justifying version which has to be one that feeds tape....In the a.m. I start reading the new part of the Ray appeal then when Lil has the index typed and I can compute the pages I have I'll finish up quickly, probably with what could be expanded into a shory separate book. We've fixed the price at \$10.00 and with recent post office experiences and a two-lb book have decided on 75¢ for insured postage. We won't mail any other way except with prepayment and written acceptance of responsibility. I'd rather lose sales that try to be polite when people respond to our proof of mailing with either more letters or phone calls that cost them more than the books or insured mailings added to the book price....Don't do it specially but if you picked up what CBS aired on Lane/Walters/telex by Rather and Graham, subject my Kartiganer letter I'd appreciate either a tape of it you make it a trsnacript. Just for the record. There was a real coinciding Dallas threat I did go into in COUP. The Dallas cops had an inside informant and did tell the FBI and Secret Service. Sh~~ou~~kd there not have been a telex?
