

SEP 4 1976

JDW: If you taped Mark Felt on Face the Nation Sunday please hold the tape temporarily. The local outlet said Kelley instead of Felt, I thought it was a rerun and didn't take the show in. Got busy and forgot to write for a transcript. Reminded by a note from George Herman as he was leave to restore the nerves so they can be frazzled again as soon as he is back. I've asked him to see if he can come up with a transcript. If he cannot and you do have the tape, only when will I be interested... Staying busy with affidavit drafts in my campaign to get the DJ and FBI to out crime back on the streets where it belongs and leaves us much safer... As you will gather if you have time to read the enclosed to Lesar, the sweeping precedent of the spectro remand is beginning to take hold. Maybe we'll end incompetent affidavits that are supposedly perjury proof. Meanwhile, I'm lustily after those who believe it is immune. They are used to protection and get a little careless. Jim willing, I'll be giving the judge a chance... Sit tight. This is not asking you to get in touch with Hal. The last address I have is 3454 Taraval, #6. Only if you know of a change would I like to know. A young friend has obtained some newly-released FBI reports on and relevant to an old interest of Hal's, one Arnold Lewis Kessler, part of the Mexico story. I did not read them when he was here Sunday because he promised me copies. From the skimming I think it's not impossible that Hal and friends may be able to identify an unexposed fink. So I'll want to send him copies... Hope the plumbing expert has continued to improve her time. At what she's worth.... Best, HW 8/31/76
