

JDW: Please do not go out of your way on this. I ask only in case you have a clip of tape or in the future can. The reports I receive from LA indicate that even now Lane is coat-tailing Schweiker, has dredged his own non-evidentiary swamp and because few people know and none can do anything is getting away with the grossest factual error. He pretends he has new info because the change in climate opens up reporters like WDSU's Bob Jones. Rubbish. Lane is also wrong on the simplest fact of such things as dates where the date error is essential in the Schweiker house of cards. I do not know what if any appearances he has made or will in the Bay ~~xxx~~ area. He was heavy in LA several weeks ago. If you come accross anything it may be of some use. This new garbage has Bringuier (read CIA) making arrangements for LHO to be televised, as Lane described it, when they had their fracas. Which was not televised. Gr, running-dogism again...As expected we did win the spectro appeal.

We now have to see where we can go with it and what we can arrange to help make it possible. If you do not recall this is the first case under the amneded law, which cited its first form as the first of four reasons requiring the amending. The DJ may elect to go to the Burger-Biters. Because their game is to stall I expect it, though JL and I did not discuss it. However, the district judge has set a date for a status call, which is the only way we know there was a decision. Our copy did not travel 13 blocks in six days. HW 7/12/76 JUL 13 1976
