

JDW: While I finish a drink before bed an explanation in  
e you do not think it worth the time to read all the enclos-  
s ures. The spooks are helping me make a good record in a  
number of instances that do interrelate. It is going to  
take a finkier judge than I've yet met not to see the  
transparency of what they have been doing or to agree with  
it in nay way. Jim was laughing yesterday about something  
he has in mind when we start taking depositions. e'll put  
me on first and use me to fill in the gaps they have  
created by maskings. You see I've done it with CIA to a  
degree and I don't think there is a case with DJ/FBI  
where I can't. We are needling the CIA in the interroga-  
tories where it is relevant by asking them is "D"—? Is  
A—? Is the border-crossing Cuban of the 23rd\*\*? So what  
national security purpose was served by this masking?  
What privacy was protected? Was David phillips station  
chief in McCy at the time of the assassination? Is this  
secret? Did he not resign to lead the CIA's defense? Was  
he not all over TV? So why did you mask his name? Was it  
because he went directly to the White House with the D  
fabrication? Was it because he made no effort to break  
down a plapable fabrication until Washington ordered him  
to? Could this have started a war? Was that the fabricator's  
confessed intention? So why did you mask Mr. Phillips'  
name? What law or executive order is applicable?
