

If you did not guess or presume it I did not go into ecstasies about the Schweiker report. I did say it duplicated the past by avoiding the essential and raising more questions the direct relationship of which to the actually killing remains not established. Or, until Oswald is shown to be the assassin, which has not yet been done, whatever motive he may have had of any kind is immaterial. I'll find out, I suppose, how it sets since I did in on radio where Schweiker comes from and after CBS and NBC told him and everyone what I told him they would eight months ago. It was then so obvious, so certain! HW 6/23/76
