

Apparently our new local electronics shop is quite inferior to your Mark. Temporarily I cannot expect to make easy or good TV tapes. I have a letter from Panasonic that may in time eliminate the present problems. I do intend to tape the Nixon segment of tonight's 60 Minutes on CBS. If it appears to be of value I'll either send it to you, poor as it may be, or make a dub before sending. If I do not know when it is aired out there I do believe you will find what you would prefer to do with that time and in whatever its time frame may be. I do not expect to tape all 4x90 minutes of the frosting of Ex-GH. If aired in DC^x or B&H. I'll be able to get it. If there is not what presently is more important to me, pushing on the new King materials. I may hear and perhaps tape. EE 5/1/77
