

JDW- I've gone over all the Jones/ Lane clips and these on other subjects, all helpfu, thanks. Ass. committee stories have quotes not in DC papers and I'll use them...Downey Rice died right after story appeared. I saw Post's. ... I'm also very glad that the clips came today. Gave me something to do while taking it easy. I started to swell again last evening, 'til probably think but falls short of saying because I carried too heavy a load in the a.m. Frankly it is the only thing to which I could attribute it but that makes no sense so I don't and instead wonder what has caused it. I've probably shed some of it via diuretic, which had me up at least every two hours during night so early to bed tonight and listen the Carter on China by radion. ... Because the Jones business is a SF story those clips will be particularly valuable at Wisc., I think, even if they are light in social sciences. I've kept all from Post and other papers I've seen or been sent (not many). ...So much still seems impossible. Including how he could have obtained \$11,000,000 after all expenditures from about 1,000 people, some poor.

Thanks again, HW 12/16/78
